

## To all CPSGB Members:

As collectors, we spend a lifetime gathering research, auction catalogs, and specialized handbooks. But how often do we struggle to find that one specific rate or plate variety buried in a 300-page PDF?

I am excited to invite you to our next ZOOM session: "**Signed, Sealed, Synthesized: Revolutionizing Philately with NotebookLM.**"

In this session, I will demonstrate how to use Google's AI-powered research assistant, **NotebookLM**, to transform your digital library into a searchable, interactive "specialist."

We will walk through how to upload your own sources—from the *APS Manual of Philatelic Judging* to your own census notes—and ask the AI complex questions that would normally take hours of manual page-flipping to answer.

- **Date:** Saturday April 25th
- **Time:** 1300h Eastern - 1000h Pacific; 1800hrs UK time
- **Levels of Computing Experience: All levels.**
- **Link:** SEE BELOW.
- 

**Preparation:** To get the most out of the live demo, please email me 3 to 5 PDF files related to your collecting interest ready on your computer. We will be building a "Digital Dossier" together! My email is 1870@smallqueens.ca

### Digital Philately Study Group

**Apr 25, 2026 1:00 PM Eastern Time (US and Canada)**
